DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 12/28/2007 have been fully considered but they are not persuasive.
2. Regarding claims 21-22. Applicant argues that Immarco does not teach an optical wedge and is therefore distinguishable from the claimed invention. Assuming, for the sake of argument, the applicant's statement is correct, claims 21-22 do not specifically claim an optical wedge, rather a wedge shaped birefringent medium which is present in Immarco.
3. Regarding claim 8 and the remaining claims, the applicant argues that the combination of Xie and Immarco is inapposite because Xie teaches away from operating a laser cavity in Q-switching. While Xie does teach using a single mode laser, Xie falls far short of the kind of teaching that would discourage one of skill in the art from using a pulsed laser. While a single mode laser has benefits, as discussed in Xie, a pulsed laser clearly has advantages, such as producing giant pulses as discussed in the previous office action.

4. Regarding claim 1, applicant argues that the invention does not require a polarizer, while the combination used in the office action does. In response, first the applicant appears to be arguing a limitation "there is no polarizer" which is not a limitation within the claim, and second, there does not appear to be a distinction between the polarizer (birefringent polarizing prism, figure 1, label 15) of Immarco in the prior art and the birefringent wedge (which also polarizes the laser) in the instant application.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
